

# Friends on a roll with Minzy Lounge mobile bar

by Dena Kent-Esbjerg

Looking for a fun and cool idea for your next outdoor party? Well then look no further. Sarnia's first full service mobile bar is here -- The Minzy Lounge.

Born and raised in Sarnia, owners/operators Lindsay Amit and Mariah Quintyn have spent much of their career in the customer service and hospitality industry. But when the two of them bartended a wedding last summer, and just had the best time together, they knew that they wanted to work together going forward.

They began to brainstorm, research and throw ideas around and finally came up with The Minzy Lounge.

"We couldn't be happier with how it all came together," says Amit.

Catering to almost any occasion including weddings, birthdays, festivals, promotional & corporate events, home openings, champagne breakfasts and more, The Minzy Lounge has you covered.

The ladies offer a range of services to deliver the perfect drink experience for your special occasion. Choose from their Basic Package, Livin Large and Extra Crafty package options, then combine it with the 'lounge experience', and then watch the magic begin as the drinks start flowing! Their complete mobile bar provides a service like no other in Sarnia and you can be guaranteed they have the perfect package for your event.

"The Minzy Lounge is here to offer guests an unforgettable beverage experience," says Quintyn. "We also offer a variety of irresistible add-ons to enhance your experience, such as our lounge area, and signature craft cocktails."

Since being a mobile bar owner is not a very typical "career", and there was no how-to guide, Amit and Quintyn had a lot of planning ahead of them and since both ladies are moms to young children, it was important for them to have a business that worked for their families.

"It's so great that we can work around each other's schedules, and help each other out. Being best friends in business is just an added

bonus," states Amit.

Through some trial and error, and a lot of help and support from their families and friends, they were finally on their way to a new career. However, finding insurance was also very difficult. No companies had really heard of a mobile bar, so it was unknown territory. Five months of searching and they finally were up and running.

Although this is The Minzy Lounge's first year in business they been

hard at work since last year renovating their mobile bar, and had their first event at the end of May. "We are so excited to bring this unique service to the Sarnia area and offer a fabulous customer experience."

They are focused on great service and open communication throughout the process. Keeping their clients involved ensures that everyone is happy, and things run smoothly

Mariah and Lindsay (Minzy)

from start to finish.

"Keeping the quality of our beverages is also very important to us, we use fresh ingredients for all of our cocktails and mocktails," noting that they want everyone to be included, and realize that not everyone drinks alcohol.

Outdoor weddings and private residential parties have been so popular these past few years. And there is no better place to hold these events than in the comfort of your own home! So, when the Minzy Lounge "Flo" (a vintage 1977 horse trailer) rolls up to your door, the ladies are confident that this will be a very memorable event for you and your guests.

If you are looking to up your game and impress your friends this year with a fun outdoor bar, be sure to check out The Minzy Lounge at [theminzylounge.com](http://theminzylounge.com) or connect with them through Instagram @theminzylounge, or on Facebook.
